

Product Description

Coating film

Updated: 2017.10

PANACREA

Antistatic coated film

AS-coat

AS-coat is a coated film with antistatic function applied to polyester film.

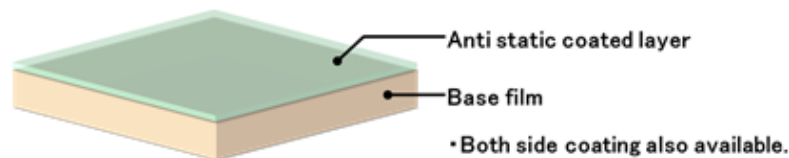

- Features

1. The coated surface is excellent in smoothness and transparency.
2. The antistatic function is stable.

- Main applications

1. For Platemaking
2. For electrical equipment
3. For electrical insulation

- Composition

- Characteristic

Type	Type of anti static agent	Surface resistance value (Ω)
AS-B	Surfactant	3×10^8
AS-E	Surfactant	7×10^9
AS-D	Conductive resin	2×10^9
